

# Become a HAM radio operator

Saturdays 10:30-12:30

February 1st through April 18<sup>th</sup>

Sign up through Darby Adult Education

Handy in many situations, radio communications can be life saving when phones and Internet are down or out of reach

Ham radios start where walkie-talkies leave off, with licensed radio operators communicating around the corner and around the world.

ARRL License Manual costs \$30 paperback \$33 spiral bound - available from instructor  
It includes chapters on every aspect of the licensing exam and numerous practice tests

YOU can be an amateur radio operator  
NO electronics background required

April classes are FCC license test day, use of your radio, practice session
